

ParaSport® Ontario's PLAY *to* PODIUM FUND

Whether it is to play recreationally at the neighbourhood court, or to train and compete competitively on the world stage, one of the biggest obstacles that stands between sport and people with disabilities is the high cost of adaptive sport equipment.

- Basketball isn't about just a ball and a net anymore, it includes a \$7,500 sports chair.
- Cycling is more than a two-wheeler, it can mean a \$10,000 handcycle.
- Playing hockey doesn't call for a pair of hand-me-down skates, it needs a \$1,500 sledge.

FUNDRAISE 4 FUN!

1. A great fundraising opportunity for your office, department, colleagues and fellow employees.
2. Get an athlete with a disability back in the game for fun, fitness and friendships.
3. Buy adaptive equipment for an athlete, school or inclusive program of your choice. We can help.
4. Follow your athlete's participation and pursuit of their dreams.

Contact ParaSport® Ontario and we'll get you started:
